EXPERIENCE

Senior .NET Developer and Business Analyst
Systemorph

Dec 2022 - present | Zürich, Switzerland

Develop the Systemorph Cloud platform and client-tailored web-apps.

Tech advocate, lead POCs and responsible for implementation, from data modelling, to business logic and digital workflows.

Organize and conduct presentations to clients, on-site trainings, and workshops.

Junior .NET Developer and Business Analyst
Systemorph

Dec 2021 - Nov 2022 | Zürich, Switzerland

Identify and implement tailored data models. Formulate or migrate actuarial methodology and digital workflows. Everything in .NET Core, EF, MS-SQL.

Postdoctoral Research Fellow
Hebrew University of Jerusalem

Oct 2019 - Nov 2021 | Jerusalem, Israel

Research on: Exact Factorization techniques in molecular physics.

Genuine predictions on the Berry phase. Methods development in C++20.

Research and Teaching Assistant
ETH Zürich

Dec 2018 - Sept 2019 | Zürich, Switzerland

Research on: Many-body Dirac Equation and relativistic quantum mechanics.

Method development: Pre-Born–Oppenheimer and Tensor Network in C++17.

EDUCATION

Doctor of Sciences
ETH Zürich

Nov 2014 – Dec 2018 | Zürich, Switzerland

Explicitly Correlated Gaussians and the Quantum Few-Body Problem.

Second level Master's Degree in Science and Technologies
Scuola Universitaria Superiore di Pavia (IUSS)

Oct 2009 – Sept 2014 | Pavia, Italy

Focus on transversal and interdisciplinary culture, with a proactive approach.

Face the future with responsibility and confidence to build innovative and sustainable projects and solutions.

BSc and MSc in Physical Chemistry
University of Pavia and University of Cambridge

Sept 2009 – Sept 2014 | Pavia, Italy – Cambridge UK

MSc : A classical dynamic that conserves the quantum Boltzmann distribution.

BSc: Molecular Memories: rotaxane- and catenane-based molecular devices.

MOST PROUD OF

Swiss National Science Foundation (SNSF) Fellowship
Research Grant, October 2019 - Nov 2021

Project Manager - from Jul 2023
Define scope, plan and organize the execution of the POC

TECH SKILLS

C++20 with Armadillo, Boost, Eigen, OpenMP 4.0, MPI, MPI 3.1, SIMD, HPC ●●●●●

C# 12, Q#, .NET Core, Nuget, DI, WPF, Blazor, ML.NET, Docker, RestAPI, CI/CD ●●●●●

Eclipse, Visual Studio, ReSharper, Git, Mathematica, LaTex ●●●●●

Javascript, Python, CSS, AJAX, CSS, HTML, VBA, OpenACC, CUDA ●●●●○

STRENGTHS

Algorithm Optimization | Strong Math Foundation | Concurrent Computation | Distributed Computing | Quantum Computing | Software Design | Scrum and agile framework | Cloud Architectures

Data Modelling | Digital Business Process | UX | Actuarial Methods | Accounting Standards IFRS17

Fast Learning | Scientific Writing | Teaching | Public Speaking | Cross Domain Knowledge

LANGUAGES

German	A2
English	Proficient
Italian	Mother Tongue

ABOUT ME

PUBLICATIONS SELECTION OF

J. Chem. Theory Comput., 18, 234 (2022)
Quantum Proton Effects from Density Matrix Renormalization Group Calculations

Phys. Rev. A, 102, 022803 (2020)
Analytically projected, rotationally symmetric, explicitly correlated Gaussians with one-axis shifted centers

J. Chem. Phys., 142, 134103 (2015)
Boltzmann-conserving classical dynamics in quantum time-correlation functions: "Matsubara dynamics"
